

NMC AIR™

CLOUD BASED SOFTWARE FOR NMC IRRIGATION CONTROLLERS

OPERATE AND MONITOR YOUR IRRIGATION SYSTEM ANYWHERE AT ANYTIME

NMC Air, a cloud-based software, provides a user with the ability to operate and monitor the NMC Irrigation Controllers from anywhere at anytime. NMC Air software connects an NMC Pro, DC or NMC Junior Pro Irrigation Controller to the NMC Air cloud.

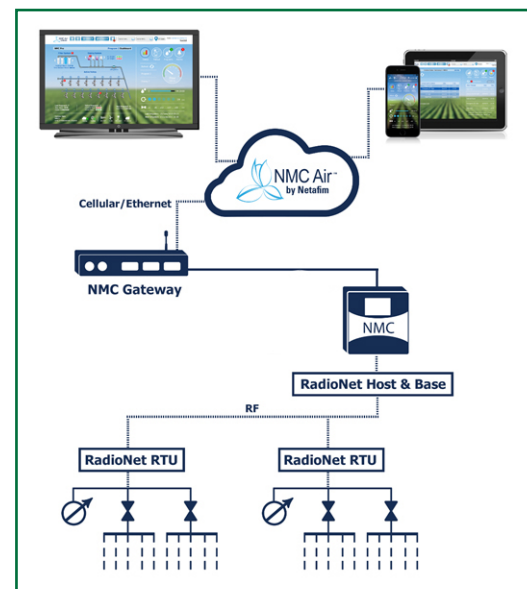

PRODUCT HIGHLIGHTS

- Real-time in-field operation
- Check your system at a glance
- Provides water and nutrient use traceability
- Connectivity via web and mobile access
- Optimizes efficiency
- High end user experience - simple and fun

MAIN FEATURES

- Get farm status and check active irrigation and dosing performance in a single view
- Get alarms and notifications sent to your mobile device or PC
- Manually and remotely operate the NMC Irrigation Controller:
 - Pause and resume irrigation
 - Start or stop irrigation programs, valves, filter flushing
- View and create graphs for trend monitoring
- Create and edit your NMC irrigation strategy:
 - Edit irrigation, dosing, water run time, filter flushing, misting and cooling programs
- Get historic logs for analyzing farm data:
 - Irrigation and sensor logs
 - Uncompleted irrigation and other uncompleted programs
